Happy birthday, Yusuf!

Happy Birthday, Jasra!

Dear Parents,
See how time flies. Its another new month again and we are marching stronger in this new month of March with our academics in Grade 5.

It will interest you to know that students with D's and I's in the first semester examination have been placed on enrichment classes in other to bring them to an acceptable grade level. This is done at zero cost. Extra coaching classes is still on to prepare our students to meet the demands of different international and local curriculum examinations.

Ivanna Chimere: Voted assistant class prefect.

In Mathematics this month, we shall be looking at **volumes of cube, cuboids, spheres, cones and cylinders.** **Science** will take us on a journey to **'Matter and Fossils'**.

Finally, we encourage our parents and guardians to join us in a complementary effort to better the learning of our great learners.

Thank you.
Regards,
Mr. AndyMarie
Ms. Abigail

I can write too: Obehi Aburime!

The Moon's Light
When nigh falls soon, I will see the moon to give me light all through the night.

Nancy
Nancy is from France
Nancy can dance
She never skip a beat
Always landing on her feet.

Students corner

The Imaginative Man: Ealga Tobrise

If you imagine you are in a pitch black room with a window and a door that can not be seen because of the darkness of the room. How do you get out of the room if there is a fire outbreak?

Answer:
Watch out for next month's edition!

Yusuf Zubair: Class prefect for the month of March
